Summary

Computer Science graduate with expertise in programming and android development using Java. Seeking a dynamic role to leverage my skills in C, Java, and SQL, along with my leadership experience, to contribute to innovative projects and drive organizational success.

Education

Yeshwantrao Chavan College of Engineering, Nagpur <i>Bachelor of Engineering in Computer Science</i>	<i>July 2026 (Expected)</i>
◦ CGPA: 7.4/10	
Government Polytechnic, Nagpur <i>Diploma in Computer Engineering</i>	<i>Dec 2020 – July 2023</i>
◦ Percentage: 86.40%	
Mahatma Gandhi High School, Nagpur <i>SSC (State Board)</i>	<i>Jun 2007 – Mar 2020</i>
◦ Percentage: 92.20%	

Experience

PAT Intern – Quality Engineering & Assurance (QEA) <i>Cognizant</i>	<i>Jan 2026 – Present</i>
◦ Developed scalable automation frameworks using Java, Selenium WebDriver, TestNG, and BDD (POM) for functional and regression testing; automated end-to-end scenarios for Amazon and Coursera platforms.	
◦ Performed API automation, backend validation, and database verification using JDBC and SQL; built data-driven utilities with Apache POI and managed Agile workflows via Jira.	
Android Development Intern <i>ITNetworkz Infosystem Pvt Ltd</i>	<i>June 2022 – July 2022</i>
◦ Collaborated with a team of 5 to design and build a Java-based Library Management Application.	
◦ Contributed to UI development and enhanced app accessibility for library administrators.	

Projects

Multi Speaker Speech Analysis for Speaker Evaluation	<i>Jan 2025 - Nov 2025</i>
◦ Building an NLP-based system for analyzing multi-speaker conversations using speaker diarization.	
◦ Implemented audio preprocessing, feature extraction and clustering.	
◦ Tools Used: Python, PyTorch, Librosa, NLTK, BERT, Matplotlib	
VerifyIt! – Inventory Management Application	<i>Jan 2023 - June 2023</i>
◦ Developed an Android-based asset tracking app using Java and XML in Android Studio.	
◦ Enabled real-time inventory updates, asset tagging, and automated report generation.	
◦ Tools Used: Java, XML, Android Studio, Firebase	

Publications

- **Research Paper:** "K-Means to Spectral Clustering: Improving Diarization Accuracy with ECAPA-TDNN Embeddings", presented at **CIACON 2025 – International Conference on Computing, Intelligence and Application**, Dr. B. C. Roy Engineering College, Durgapur, July 18–19, 2025.

Technologies

Languages: Java , C , SQL
Web & Frameworks: HTML, CSS , Basic JavaScript
Databases: MySQL, Firebase Realtime Database
Testing & Automation: Selenium WebDriver, TestNG, BDD/POM, Apache POI
Tools & Platforms: Android Studio, VS Code, Jira
